

The Cat

The Story

Recently, a *new stray cat* has been spotted around our house and has befriended our currently owned cat, *Spot*. We have since then have counted it as one of our cats, and it will be getting a vaccination soon.

The Opinions

My family in this home are divided on their opinions about this new cat.

My little sister says she “*loves* the new cat.”

My dad is neutral about the cat.

I am a little scared of the cat but I like it.

So, overall the cat is believed to be a good thing.

Names

Last, but not least, we are working on names for the cat. None are chosen yet but a few are in the air such as “Tops”, as it is our other cat's name but backwards, or *Whisker*, which was recommended by my little sister.
